

## Step 1: Peacci Smooth

Your dream Foot File is here. Its **innovative micro-grains** quickly buff away even the hardest of skin for the smoothest polished feet around.

**Top tip:** The tapered end is perfect for focusing on smaller areas such as toes. The Peacci Smooth is also long-lasting and easy to clean! Simply rinse under a tap for a few seconds.

## Step 2: The Perfect Prep

Give yourself an all-natural exfoliation with our non-drip Peach ManiPedi Scrub. Filled with **ground coconut shell** and **sugar** for skin as smooth as a peach. Apply in circular motions to damp skin to naturally exfoliate and stimulate blood circulation.

**Top tip:** For deeper exfoliation on your feet, scoop some scrub onto your Peacci Smooth Foot File and work into dry and hard skin, then rinse with water.

## Step 3: Velvet Up

This dynamic double-action Vanilla ManiPedi Mask, full of **Vitamin C**, **Niacinamide** and **Shea Butter**, is the best moisture-rich treatment for hands, arms, feet or legs.

**Top tips: For Speedy Deep Conditioning**, dampen skin and use circular motions to massage a small amount of mask in.

**For Longer Intensive Rejuvenation**, apply generously and wrap in a moisture glove/sock for more effective results (or life hack...cling film!) and leave for 15-20 mins. Finish either action by massaging the excess into skin for extra moisture, or rinse off with water.

## Step 4: Silk Away

Our Peach ManiPedi Cream is super hydrating and blended with **pro-vitamin B5**, **Vitamin E** and **Glycerin** to lock in moisture and soothe irritation and redness. Massage into clean hands, feet or other areas like elbows and knees (or any other part of your gorgeous body) for immediate relief on dehydrated skin.

**Top tip:** The cream also works as an intensive cuticle treatment, so use it whenever you need some extra hydration.

## Step 5: Peacci Shape

Complete your **#PEACCIPAMPER** with the innovative Peacci Shape Nail File. Its **micro-grain technology** is gentle on natural nails, with no uncomfortable feeling or sensation, promising perfectly shaped nails in no time!

**Top tip:** Keep with you in your day-to-day bag and repair any mishaps on the go. It's also easy to clean! Simply rinse under a tap for a few seconds.
