# Velvet Crush TRIO

APPLICATION GUIDE

*Simple guidance for applying Lush, Elixir and Amore, as well as Northern Lights and North Pole.*

**Step 1.** After curing your base coat and any other chosen colour, apply an even layer of Cat-Eye gel over the nail.

**Step 2.** To use the Dual-Ended Magnetic Tool, position the magnetic part over the area of the gel you want to create your design on. The rectangular end pulls the gel product, and the rounded end pushes the gel, so you can experiment with different effects.

**Step 3.** Hold the tool in different directions and at different angles over the nail until you get your desired look.

**Step 4.** Cure for 60 seconds using the TGB Light The Way Lamp.

**Step 5.** Apply Extreme Shine Top Coat and cure for another 60 seconds.
